

GOGO BIZ 4G

brilliant

Your work. Your life.

Take it all with you when you fly.

Today, personal devices power our worlds. They keep our businesses running, our personal lives interesting and our down time more rewarding. With the Gogo Biz 4G network and Gogo AVANCE L5 technology, now you can have inflight connectivity that gives you full power to do it all during flight.

Stream video and audio. Seamlessly host a web conference. Surf the web and access your personal network and email, text with friends and family. It's the proven way to fly smarter, and it means you'll never again miss a meeting, a movie, a mention, or a life moment while you're in the air.

We thought of everything

So you can do anything

Gogo Biz 4G—powered by the AVANCE L5 system—means your professional and personal lives don't have to stop in the sky. Now you can make the most of your time and your devices.

- › Reliable, seamless performance across the U.S. and parts of Alaska and Canada

- › Streaming video and audio
- › VPN support
- › Web browsing
- › Email with large attachments
- › Voice service
- › Gogo Text & Talk (service plan required), call/text inflight with your own phone and number

- › Gogo Vision information services, including 3D moving maps, destination weather and news clips (included at no additional charge)

- › Gogo Vision entertainment services, including fully licensed movies/TV episodes and magazine library (subscription plan required)

- › Real-time access to data that supplement information in popular flight deck apps

Gogo AVANCE L5

High-powered brains on board

The Gogo AVANCE platform powers the entire Gogo ecosystem, connecting all apps, systems and services with smart router Wi-Fi performance, multi-network management, CMS integration and cloud-based service and support. Gogo AVANCE L5 is the central hub for all your on-board networks, governing in-flight data, voice, maps, and entertainment with a fast, reliable experience for nearly any size or type of business aircraft.

- › Advanced 802.11ac dual-band router (5GHz & 2.4GHz) maximizes bandwidth and optimizes in-cabin Wi-Fi performance
- › Dynamic, multi-bearer data and voice management
- › Complimentary internet on the ground in 100+ countries
- › Future ready to expand to faster networks, when available
- › Integrates with select Cabin Management Systems (CMS)
- › 24/7/365 monitoring and global support
- › Remote diagnostics and service activations/changes
- › Gogo DASH tools provide visibility into the health of Gogo systems

Everywhere you go

Gogo Biz is the only reliable, ready-now internet connectivity ATG network seamlessly covering the continental U.S. and parts of Canada and Alaska.

Coverage starting at 3,000 feet above ground level (or higher).

Powerful meets affordable
