

## FBO RESERVATIONS REQUIRED

**Q2, 2024 - Q3, 2025**

### RESTRICTED OPERATING CAPABILITIES DURING CONSTRUCTION

Clay Lacy is building a new FBO and hangar complex at John Wayne Airport. Construction begins on Q2, 2024, in two phases, significantly reducing ramp and parking capacity at our FBO.

#### PHASE 1

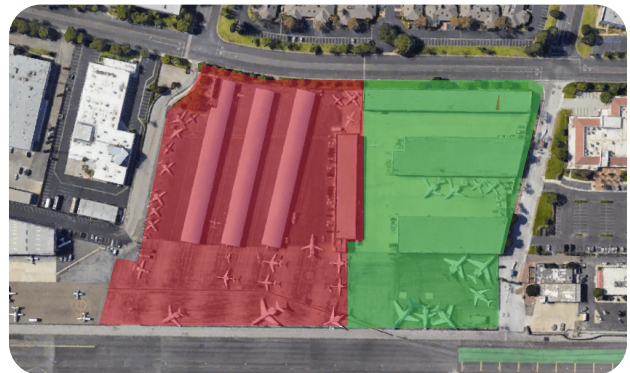

##### Construction of main ramp

Q2, 2024

Impact level: High

- FBO services are available by reservation only
- Overnight parking is permitted by reservation only
- Very limited ramp space (Maximum of 3 aircraft staged at one time)

● Construction zone ● Operational zone

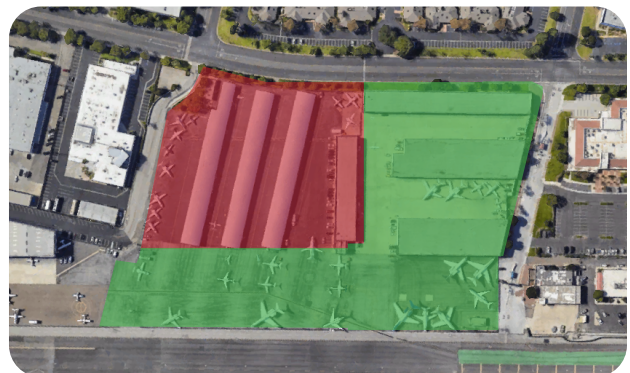

#### PHASE 2

##### Construction of FBO terminal, offices, the first two hangars, and the parking lot.

Q2, 2024 - Q3, 2025

Impact level: Medium

- FBO services are available by reservation only
- Overnight parking is permitted by reservation only
